

**FIFRA §2(ee) RECOMMENDATION
FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF IDAHO AND
COLORADO**

Sonalan[®] HFP

For aerial applications on potatoes

DIRECTIONS FOR USE

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- All applicable directions, restrictions, and precautions on the EPA registered label are to be followed.
- This labeling must be in the possession of the user at the time of pesticide application.

POTATOES

Broadcast apply and incorporate Sonalan HFP after planting but prior to crop emergence.

Broadcast Application Rates

Soil Texture	Sonalan HFP (pt/acre)
coarse	1 1/2 - 2
medium	2
fine	2

Sonalan HFP may be applied through sprinkler irrigation equipment or air using the maximum recommended rate for the soil texture class of the treatment site. Refer to the Chemigation Application section in General Information in the main product label for Sonalan HFP for specific use directions for chemigation.

Cultivation

Sonalan HFP may be shallowly cultivated without reducing weed control activity. Avoid exposure of untreated soil.

Restrictions:

- Do not apply after crop emergence or exceed 2 2/3 pint per acre per season.
